

Relax and enjoy cool comfortable shade

**CUSTOM MADE, PROFESSIONALLY INSTALLED
WORLD CLASS SHADING SYSTEMS**

THE ULTIMATE SUNBLOCK®

Eclipse offers a complete line of retractable shading systems for your home or business. Our “green” products will reduce your cooling costs, expand your living space and add style and color. Eclipse awnings are individually crafted to meet your unique and specific shading needs – with virtually millions of combinations; no two units we produce are the same.

Built To Your Specifications

Your independent Eclipse dealer is a shading expert who will design and install products that are both beautiful and functional. We assemble our products right here in the USA using the finest components from around the world. Using state-of-the-art equipment and the latest technology, our skilled craftsmen and assemblers build every unit from scratch typically in less than 7 days from date of order. This express production schedule allows your Eclipse dealer to typically install your awning within 3 weeks or less.

THE
Eclipse

**Uniquely Designed And Built
To Meet Your Needs**

Every Eclipse shading system is custom made and professionally installed to meet your unique needs. The Eclipse is an ideal solution to expand the living space of virtually any deck, patio or terrace. The Eclipse features a 10 year frame warranty and is our most versatile shading system.

The perfect addition to your outdoor

THE Total Eclipse

When Bigger & Better is Just Right For You

The Total Eclipse offers unequaled strength and durability for both residential and commercial use. The Total Eclipse, which carries a 10 year frame warranty, features unit components that are up to 50% larger than our Eclipse system and can project up to 16'6" – the largest in the industry!

THE Eclipse E-Lite

Quality And Affordability Meet

The custom made E-Lite unit is available with our most popular options, providing homeowners both value and affordability. The E-Lite, which compares very favorably to other brand's top of the line product, carries a standard 5 year frame warranty.

living decor

THE SunRoof Plus

Designed for protection from both sun and rain. Available in two styles, Patio & Pergola

The Patio style is designed to attach to an existing wall and incorporates a front crossmember and matching powder coated aluminum posts. The Pergola style is designed to mount on top of an existing structure such as a free standing pergola or over a sunroom.

THE Eclipse Drop Arm

Reduces Cooling Costs And Sun Glare...Beautifully

The Eclipse Drop Arm shading system is ideal for windows, porches or any opening where you desire to stop direct sunlight. The Eclipse Drop Arm will reduce interior fading & cooling costs while adding privacy and style to your home. When not in use or when warming sunlight is desired, the Eclipse Drop Arm is fully retractable. No seasonal take down needed like traditional style window awnings. The Eclipse Drop Arm comes with a 10 year frame warranty.

THE Eclipse SC

Added Protection For Residential And Commercial Applications

The Eclipse SC is similar to our Eclipse unit with the added protection of a full wrap around hood that completely protects the fabric when retracted. The Eclipse SC carries a 10 year frame warranty and is ideal for roof mount applications.

THE Eclipse SC II

European Design & Elegance

The Eclipse SCII is our next generation retractable shading system whose sleek design allows for increased protection of the fabric. Guarding the fabric from the elements when the unit is retracted, it is ideal for roof mount applications. Homeowners and business owners alike will enjoy the clean lines and added security the Eclipse SC II provides.

THE Eclipse Premier

Improve on a Classic

The Eclipse Premier takes our most popular model, the Eclipse unit and upgrades several key frame components for smoother operation and a sleeker look. The heavy duty aluminum torsion bar and next generation arms featuring CB³ technology allow the Eclipse Premier to combine European, cutting edge performance on an American classic. The Eclipse Premier features a standard 15 year frame warranty.

Eclipse is proud to carry the prestigious Skin Cancer Foundation Seal of Recommendation on its products using Sunbrella fabrics

THE Ultimate Eclipse The Ultimate is Function and Form

Are you ready to step up to the finest in retractable shading? The Ultimate is our pinnacle product built on many industry leading unique patents. The Ultimate is ideal for both commercial and residential applications and carries a LIFETIME frame warranty. A semi-cassette hood option, which protects the entire fabric when retracted, is available up to 22' wide with projections up to 13'. The sleek yet rugged framework will provide you with years of trouble free solar protection.

THE Eclipse Butterfly

Instant, On-Demand Shade Anywhere

No walls to mount to? Not a problem with the Eclipse Butterfly - a free standing, motorized retractable shading system that is ideal for pool sides, cafés or any open space that needs shade. The Eclipse Butterfly mounts onto or into any solid mounting surface, can cast up to 400 sq/ft of shade and is warranted for 10 years.

Interior Roller Shades

Eclipse Interior Mounted Retractable Shades

Retractable Sunglasses For Your Windows

Eclipse shades are a “green way” to reduce room temperatures, save energy, eliminate sun glare and stop the fading of your personal effects. Eclipse offers several models of interior mounted retractable shades that can be manually operated or motorized. For maximum efficiency, electronic light and temperature sensors can be incorporated. Eclipse shades feature GreenGuard® certified fabrics that are ideal for any residential or commercial location.

Exterior Screens

Eclipse Exterior Mounted Retractable Screens

Maximize Your Energy Savings

Exterior mounted screens greatly reduce solar heat gain by stopping the effects of the sun before they enter the home, lowering room temperatures up to 20 degrees! Eclipse screens will also add privacy and security to any location. Eclipse screens are fully custom made in a wide variety of fabrics and options to best fit your unique needs. The Eclipse E-Zip, a side retention track screen, will allow you to create a virtual bug proof environment with a touch of a button.

Advanced Belt Technology

While other systems have exposed cables or chains, most of Eclipse shading systems utilize this patented feature. The ABT consists of individually wound cables encased in a poly-carbon, UV resistant PVC coating. Each belt is individually tested up to 3,300 pounds guaranteeing a long, worry-free life for your shading system.

Advanced Belt Technology is featured on our Eclipse, Total Eclipse, Eclipse SC, and the Eclipse Butterfly retractable awnings.

Tension Transmission System Comparison

ABT	60,000 Cycles
CHAIN	8,000 Cycles
CABLE	5,000 Cycles

Electronic Accessories

Working in conjunction with motorized units, our world-class wireless components will increase your unit's functionality and effectiveness. Wind Sensor: This accelerometer sensor attaches to the front bar which will retract the unit if it gets too windy – adding a level of safety. Sun Sensor: This sensor typically mounts to an exterior wall and will automatically extend the awning once the preset sun level is attained.

Authorized Dealer

Security And Safety of Expert Installation

Retractable shading systems are designed to withstand changing weather conditions. These changes coupled with the product's cantilevered design exert forces on the framework which are transferred to the installation brackets and back into the home's structural system. Your professionally trained dealer will safely install your Eclipse shading system providing you and your family years of worry-free solar protection.

From Serene to Stunning, We Have The Fabric For You

Eclipse offers hundreds of long lasting, heavy duty, 100% acrylic fabrics that are warranted from rot, mildew and excessive fading. Each awning cover is sewn with UV and weather resistant GORE™ Tenara thread for fabric seams that are long lasting.
