THE ULTIMATE SUNBLOCK®

# THE Eclipse E-Lite

RETRACTABLE AWNING

## Where Quality and Affordability Meet

Every E-Lite awning is custom made with our most popular options and professionally installed to solve your sun problem and expand living space. The E-Lite compares favorably to what many others tout as their top of the line awning. The E-Lite provides the best value to homeowners that desire top quality.

## PRODUCT HIGHLIGHTS

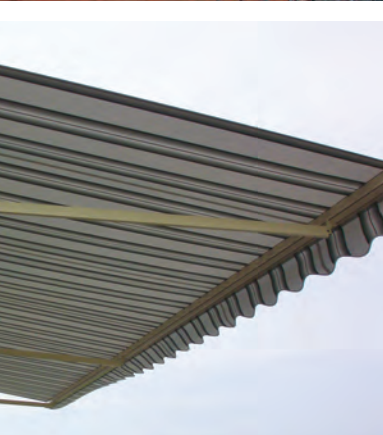

- Widths from 10 to 32 feet
- Projections of 8'2", 10'0" and 11'6"
- Blocks up to 98% of the sun's harmful UV rays while providing significant "green" cooling
- Manual hand crank or motorized
- All frame components meet stringent ISO 9001 and TUV standards
- Mounts on virtually any surface – wall, roof or under a soffit
- Dual PVC coated cable arms and stainless steel hardware
- Assembled with pride in the USA
- 5 year framework warranty

## Some Things Are Better Left To The Professionals

Retractable awnings are designed to withstand changing weather conditions. These changes coupled with the product's cantilevered design exert forces on the awning frame which are transferred to the installation brackets and back into the home's structural system. Your professionally trained dealer will safely install your Eclipse awning providing you and your family years of worry-free solar protection.

Eclipse Shading Systems is proud to carry the prestigious Skin Cancer Foundation Seal of Recommendation on its products using Sunbrella fabrics.

## Create A Custom Outdoor Living Space For A Price That Just Cannot Be Beat!

### Make Your Life Easy-Motorize It!

To provide you with touch of a button operation, we offer a variety of UL listed optional tubular motors to operate your shading system. Ask your dealer which motor and electronics best meets your needs.

### Matching Protective Hood

Because there is no seasonal take-down with the Eclipse E-Lite, we offer an aluminum, powder-coated hood that provides fabric and optional motor protection from the elements. The optional hood is ideal for roof mounts or any mounting that does not have overhead protection.

### Mount On Virtually Any Surface

The versatility of the Eclipse E-Lite allows for mounting on just about any surface:

- Wall or flat surface
- Underside of a soffit
- On a roof surface with specially designed brackets

## Select An Extended Lifetime Warranty

Ask your dealer for complete details

- Lifetime Framework/Hardware
- 10 Year Fabric Cover
- 8 Year Motor & Electronics

# Customize Your Eclipse Awning With Our Standard Design Selections Or Our Optional Accessories

## Hardware To Match Your Décor

Eclipse offers two of our most popular, architecturally pleasing colors to either match or accentuate your home. Our pretreated powder-coated finishes are second to none in durability and appearance.

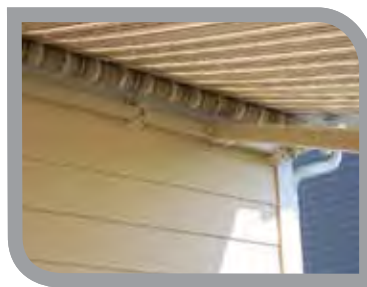

White

Camel

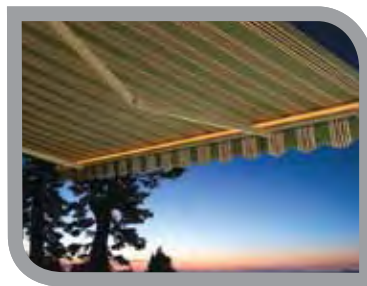

## From Serene to Stunning, We Have The Fabric For You

Eclipse offers hundreds of long lasting, 100% acrylic fabrics that are warranted from rot, mildew and excessive fading. Eclipse offers two fabric pricing tiers to best fit your budget.

## The Simplicity of Beautiful Design

The design of the Eclipse E-lite has simple lines and blends harmoniously with the exterior of any house. This retractable awning is an affordable extension of your outdoor living space and adds value to your home.

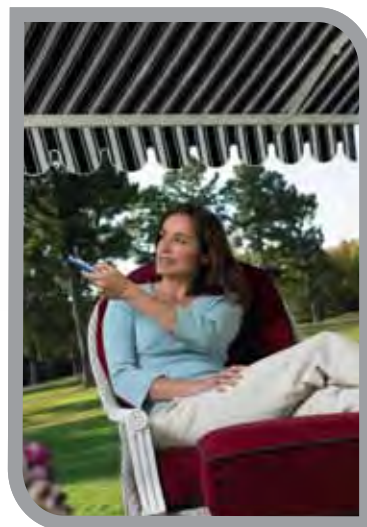

## Lunar Lighting Package

Rope style lighting that provides a soft moonlight glow, perfect for evening entertaining at the touch of a button. These UL listed lights are safe for outdoor use and will not attract bugs.

## Solar Beam Heater

Extend your outdoor living with our on-demand 1500 watt, short wave, infrared heater that mounts to the underside of the unit's torsion bar or directly on the wall. With the wall mounted control unit, you can dial in the amount of heat you desire.

## Electronic Accessories

Working in conjunction with motorized units, our world-class wireless components will increase your unit's functionality and effectiveness.

**Wind Sensor:** This accelerometer sensor attaches to the front bar which will retract the unit if it gets too windy – adding a level of safety.

**Sun Sensor:** This sensor typically mounts to an exterior wall and will automatically extend the awning once the preset sun level is attained.
