

EXTERIOR MOUNTED RETRACTABLE SCREENS

Exterior Screens

RELAX AND ENJOY COOL COMFORTABLE SHADE

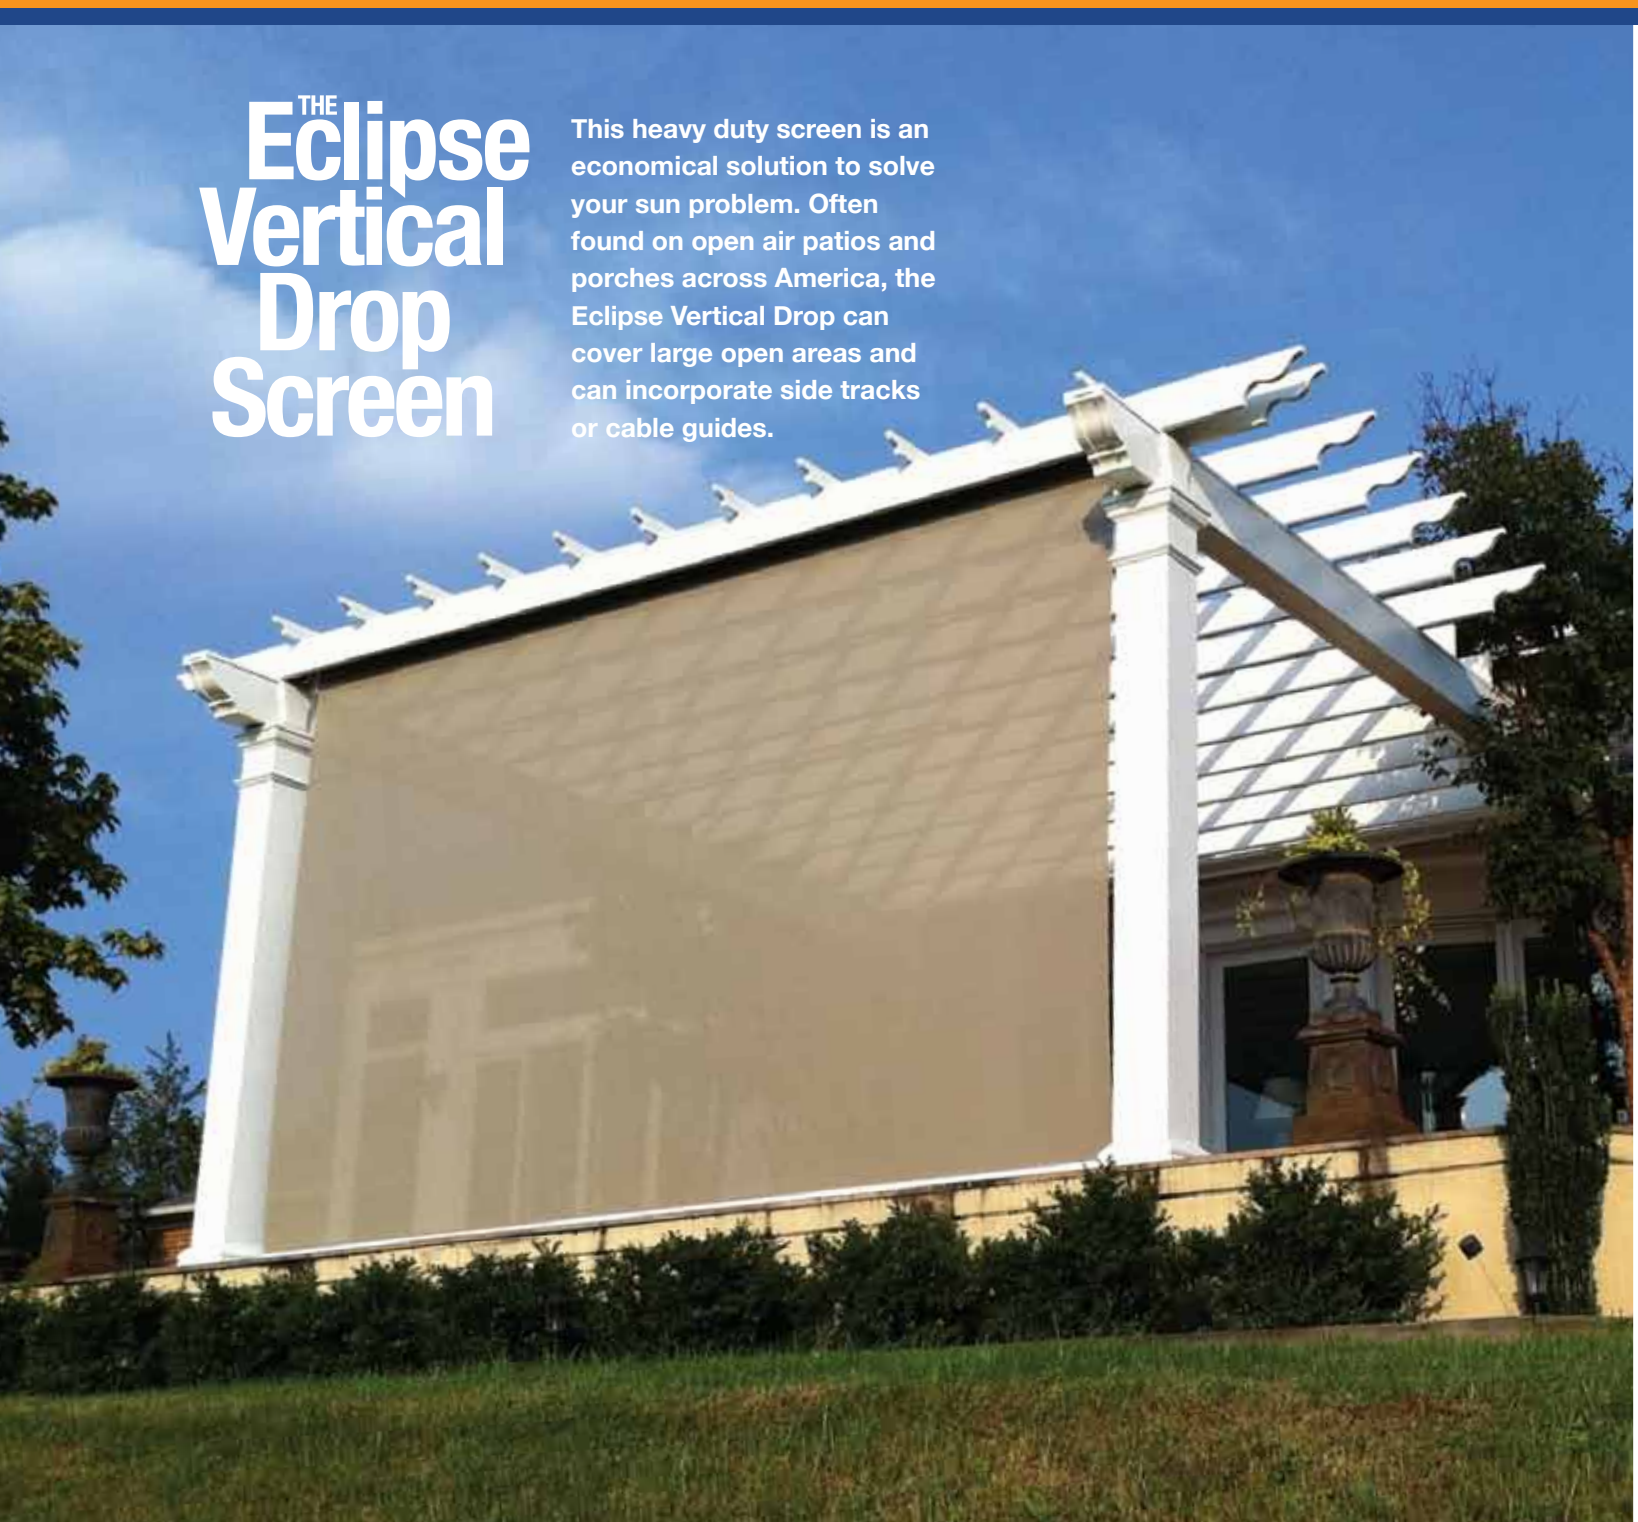

THE ULTIMATE SUNBLOCK®

Control The Sun Automatically

Motorized Eclipse screens can be activated during high sun exposure periods to greatly reduce direct light and glare as well as control ambient light. With Eclipse solar screens you'll enjoy your view without the harsh direct sunlight - like sunglasses for your windows! Because our screens are fully retractable, you determine when you need them to perform. Your motorized screens can be installed to work independently, in concert with other screens or function automatically with sun and room temperature sensors.

THE Eclipse Vertical Drop Screen

This heavy duty screen is an economical solution to solve your sun problem. Often found on open air patios and porches across America, the Eclipse Vertical Drop can cover large open areas and can incorporate side tracks or cable guides.

Dramatically Reduce Your Cooling Costs

Exterior Screens

* varies by unit and fabric selection

Stop the sun's heat and damaging rays BEFORE they enter your home or business with Eclipse exterior mounted retractable solar screens. Significantly reduce your energy costs with the "green" cooling power of solar screens, blocking up to 98% of the sun's heat. With today's high-tech fabrics, you will maintain your view while efficiently managing the effects of the sun. Each Eclipse solar screen is individually made by skilled craftsmen in the USA to meet your exact needs.

THE Eclipse Cassette Screen

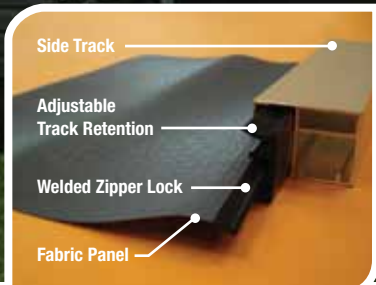

This self-enclosed shading system provides the ultimate in indoor comfort and solar protection, blocking the sun's harmful UV rays from entering your home or business. This can also save on air conditioning costs by as much as 40 percent! The Eclipse Cassette Screen can be used on most windows and openings.

THE Eclipse E-Zip

SIDE FABRIC RETENTION SYSTEM

The Eclipse E-Zip retractable shading system provides touch of a button control for expanded outdoor living. The E-Zip will reduce sun glare, block a majority of the sun's heat, and add privacy all while creating a virtual bug proof environment. The unique side fabric locking system will also add a level of security for both pets and your outdoor belongings. Make the most of safe outdoor living with a custom made professionally installed Eclipse E-Zip shading system!

MERMET

Electronic Accessories

Eclipse screens are available in a variety of motor options to meet your needs. We utilize Somfy motors which are designed to tie into home automation systems as well as function with wireless sensors, greatly increasing the effectiveness of your screens.

Wide Array Of Fabrics To Choose From

Eclipse exterior screens are available in a variety of colors and openness factors to suit your needs. We also feature GreenGuard® certified and other eco-friendly fabrics from Mermet along with other industry leading brands.
